

ANGELINA DEMIRTZOGLU

Business Analyst

angelinademirtzoglou@gmail.com | +45 91 69 20 24 | [LinkedIn](#) | [Portfolio](#) | Copenhagen

PROFILE

Business analyst with three years of experience across IT and organisational change. Experienced in interviewing stakeholders and mapping AS IS and TO BE business processes. Proven track record of defining requirements, analysing data and building reporting that demonstrates problem-solving and supports critical decisions. Recognised for dedication and a proactive approach to addressing issues early in the process.

EXPERIENCE

UX Researcher (Contract)

Microsoft, Copenhagen | Nov 2024 – Aug 2025

- Led persona research with moderated interviews to guide design and product decisions for AI experiences in Dynamics 365 Business Central (SaaS, ERP).
- Guided the launch and iteration of Business Central's first generative-AI features (including Summary and Autofill) through seven evaluative studies.
- Investigated partner value propositions and carried out interviews and surveys to inform the product roadmap.
- Collaborated closely with designers, product managers and engineers to turn insights into meaningful product improvements.

Business Analyst

Nordea, Copenhagen | Feb 2024 – Oct 2024

- Onboarded mainframe access groups into SailPoint IIQ, which brought the bank into compliance.
- Ran internal compliance audits that confirmed processes were being followed.
- Investigated access data and traced inconsistencies to their source for remediation.
- Built Excel reporting tools with Power BI integration that the team used for investigations and audits.
- Defined data requirements and ownership for access groups.
- Managed the team's Jira and Kanban board across sprint cycles.

Product Design Researcher (Student Worker)

Microsoft, Copenhagen | Nov 2022 – Jan 2024

- Mapped AS IS workflows across Finance and Accounting roles and defined TO BE scenarios.
- Ran discovery using the Jobs to Be Done framework and opportunity scoring, including a segmentation survey I designed and analysed. This work identified the highest-value gaps and shaped the creation of the [Payables Agent](#), an AI feature now in production.
- Wrote user stories and success criteria with Program Managers.
- Facilitated validation sessions with subject matter experts.

UX Research Intern

one.com, Copenhagen | Apr 2022 – Jul 2022

- Mapped user journeys and developed personas.
- Moderated interviews and card sorting sessions.
- Facilitated stakeholder workshops in Miro.

AI Data Annotator, Team Leader

Tendertec, Remote | Dec 2019 – Aug 2021

- Labelled and prepared data used to train and validate a machine learning model for fall prediction.
- Performed QA and usability testing and logged defects in Jira.
- Led a team of annotators and reported weekly to machine learning engineers.

Customer Support and Back Office Roles

Teleperformance / Cosmote E-value / Andrikopoulos & Associates, Greece | 2017–2019

- Handled B2B and B2C inquiries across phone, email and chat.
- Processed orders and account settlements using SAP ERP and Oracle.

EDUCATION & RESEARCH PROJECTS

Certificate, Intro to Programming

ReDI School of Digital Integration Denmark | Sep 2026 – Present

M.A. Cognitive Science & Communication

University of Copenhagen | 2021 – 2024

- Thesis: tested four large language models for anchoring bias and framing effects, using Python API pipelines for data collection and statistical analysis in R; results statistically significant.
- Gamification project: controlled experiment on game framing and task engagement using Gorilla, R and NVivo.

B.A. Philosophy

University of Patras | 2013 – 2018

LANGUAGES & ELIGIBILITY

English — fluent, written and verbal. Greek — native. Danish — Learning (Module 4). EU citizen, resident in Copenhagen with full right to work in Denmark.
